THE

QUARTERLY JOURNAL

OF

MICROSCOPICAL SCIENCE.

EDITED BY

E. RAY LANKESTER, M.A., LL.D., F.R.S.,

Fellow of Exeter College, Oxford, and Jodrell Professor of Zoology in University College, London;

WITH THE CO-OPERATION OF

W. T. THISELTON DYER, M.A., C.M.G., F.R.S.,

Director of the Royal Gardens, Kew,

E. KLEIN, M.D., F.R.S.,

Joint-Lecturer on General Anatomy and Physiology in the Medical School of St. Bartholomew's Hospital, London.

H. N. MOSELEY, M.A., LL.D., F.R.S.,

Linacre Professor of Human and Comparative Anatomy in the University of Oxford,

AND

ADAM SEDGWICK, M.A., F.R.S.,

Fellow and Assistant-Lecturer of Trinity College, Cambridge.

WITH LITHOGRAPHIC PLATES AND ENGRAVINGS ON WOOD.

LONDON:

J. & A. CHURCHILL, 11, NEW BURLINGTON STREET.

MDCCCLXXXVI.

J. E. Adlard.] [Bartholomew Close.

CONTENTS OF No. CV.—New Series.

MEMOIRS:

PAGE

The Anatomy of the Madreporaria: II. By G. Herbert Fowler, B.A., Keble College, Oxon., Berkeley Fellow of the Owens College, Manchester. (With Plate I) 1

On the Formation of the Germinal Layers in Chelonia. By K. Mitsukuri, Ph.D., Professor of Zoology, and C. Ishikawa, Assistant in Zoology, University of Tokyō, Japan. (With Plates II, III, IV, and V) 17

On the Structure and Development of the Reproductive Elements in Myxine glutinosa, L. By J. T. Cunningham, B.A., Fellow of University College, Oxford, and Superintendent of the Scottish Marine Station. (With Plates VI and VII) . . . 49

Studies on Earthworms. No. II. By William Blaxland Benham, B.Sc., Demonstrator in the Zoological Laboratory of University College, London. (With Plates VIII and IX) . . . 77

On Dinophilus Gigas. By W. F. R. Weldon, M.A., Fellow of St. John's College, Cambridge; Lecturer on Invertebrate Morphology to the University. (With Plate X) 109

New Series, No. CVI (Vol. XXVII, Part 2). Price 10s.

7527
Dec. 6. 1886.

CONTENTS OF No. CVI.—New Series.

MEMOIRS:

PAGE

The Development of the Mole (Talpa Europea). Stages E to J. By Walter Heape, M.A., Resident Superintendent of the Plymouth Laboratory of the Marine Biological Association of the United Kingdom. (With Plates XI, XII and XIII) . . 123

On the Presence and Structure of the Pineal Eye in Lacertilia. By W. Baldwin Spencer, B.A., Fellow of Lincoln College; Assistant to the Linacre Professor of Human and Comparative Anatomy in the University of Oxford. (With Plates XIV, XV, XVI, XVII, XVIII, XIX and XX) 165

On the Life-History of Pedicellina. By Sidney F. Harmer, B.A., B.Sc., Fellow of King's College, Cambridge, and of University College, London. (With Plates XXI and XXII) . . . 239

Dr. Dohrn's Inquiries into the Evolution of Organs in the Chordata. By J. T. Cunningham, B.A., F.R.S.E. 265

REVIEW:

Patten on the Eyes of Molluscs and Arthropods . . . 285

New Series, No. CVII (Vol. XXVII, Part 3). Price 10s.

CONTENTS OF No. CVII.—New Series.

MEMOIRS:

PAGE

The Anatomy of the Madreporarian Coral Fungia. By GILBERT C. BOURNE, B.A., F.L.S., New College, Oxford. (With Plates XXIII, XXIV and XXV) 293

On Some Points in the Development of Petromyzon fluviatilis. By ARTHUR E. SHIPLEY, B.A., Christ's College, Cambridge, Demonstrator of Comparative Anatomy in the University. (With Plates XXVI, XXVII, XXVIII and XXIX) . . . 325

The Ammoniacal Decomposition of Urine. By WM. ROBERT SMITH, M.D., D.Sc., F.R.S.Ed., Examiner in Chemistry and Forensic Medicine, University of Aberdeen. (With Plate XXX, figs. 1 and 2) 371

Notes on Echinoderm Morphology, No. X. On the Supposed Presence of Symbiotic Algæ in Antedon rosacea. By P. HERBERT CARPENTER, D.Sc., F.R.S., F.L.S., Assistant Master at Eton College. (With Plate XXX, fig. 3) 379

The Function of Nettlecells. By R. VON LENDENFELD, PH.D., F.L.S., Assistant in the Zoological Laboratory of University College, London. (With Plate XXX, fig. 4) 393

Some New Methods of Using the Aniline Dyes for Staining Bacteria. By E. HANBURY HANKIN 401

Illustrations of the Structure and Life-History of Phytophthora infestans, the Fungus causing the Potato Disease. By H. MARSHALL WARD, M.A., F.L.S., Fellow of Christ's College, Cambridge, and Professor of Botany in the Forestry School, Royal Indian College, Cooper's Hill. (With Plates XXXI and XXXII) . . 413

On the Formation and Liberation of the Zoospores in the Saprolegnieæ. By MARCUS M. HARTOG, D.Sc., M.A., F.R.U.I. . . 427

New Series, No. CVIII (Vol. XXVII, Part 4). Price 10s.

CONTENTS OF No. CVIII.—New Series.

MEMOIRS:

PAGE

The Termination of Nerves in the Liver. By A. B. Macallum, B.A., Fellow of University College, Toronto, Canada. (With Plate XXXIII, figs. 1 to 6) 439

On the Nuclei of the Striated Muscle-Fibre in Necturus (Menobranchus) lateralis. By A. B. Macallum, B.A., Fellow of University College, Toronto, Canada. (With Plate XXXIII, figs. A and B) 461

The Development of the Cape Species of Peripatus. Part III. On the Changes from Stage A to Stage F. By Adam Sedgwick, M.A., F.R.S., Fellow of Trinity College, Cambridge. (With Plates XXXIV, XXXV, XXXVI and XXXVII) . . . 467

Morphological and Biological Observations on Criodrilus lacuum, Hoffmeister. By Dr. L. Örley, Zoolog. Instit. University of Budapest. (With Plate XXXVIII, figs. 1 to 8) . . . 551

Studies on Earthworms. No. III. Criodrilus lacuum, Hoffmeister. By William Blaxland Benham, B.Sc., Demonstrator in the Zoological Laboratory of University College, London. (With Plate XXXVIII, figs. 9 to 19) 561

Notes on the Chromatology of Anthea cereus. By C. A. Mac Munn, M.A., M.D. (With Plates XXXIX and XL) . . . 573

On Ctenodrilus parvulus, nov. spec. By Robert Scharff, B.Sc., Ph.D. (With Plate XLI) 591

The Relation of the Nemertea to the Vertebrata. By A. A. W. Hubrecht, Professor in Utrecht. (With Plate XLII) . . 605
